

KÄGWERKS™ D.O.C. [K] ULTRA

ISW ANTENNA RADOME

Low-profile, integrated antenna design enhances durability and signal performance integrating ISW NetWarrior peripherals.

BluSDR-30 RADIO

Compact embedded DTC BluSDR-30 Radio provides resilient body-worn tactical communications.

S23 EUD CASE

Rugged case for the Samsung S23 EUD providing full protection and seamless integration with the radio system.

ACTIVE USB PROGRAMMABLE

Configurable USB ports enable control and operation of ISW-connected ENVG-Bs and other soldier-worn peripherals.

RADIO POWER + NVIDIA STATUS INDICATOR

LED indicator shows real-time power and operational status of the radio system.

EMBEDDED CONNECTIVITY SUITE

Built-in Wi-Fi 5, Bluetooth 5.0, GPS, and real-time clock enable seamless positioning and networking

NVIDIA COMPUTE BOARD

Integrated Nvidia Jetson module delivers AI-capable edge compute for mission-critical applications.

CHEST MOUNT ASSEMBLY

Ergonomic chest mount ensures secure, accessible placement on plate carriers or chest rigs.
